PROFILE

Proficient technology expert in the Microsoft product offerings range and .net expert with strong analytical skills and tech know-how. Driven by the goal of finding the best solution to the client's business needs while adhering to common sense, business priorities and technological best practices.

Team leader. Skilled in mentoring and leading junior staff. Fluid client interaction. Speaking three languages (and a bit of Chinese), I am seeking a position with increased global exposure. I love working with international teams.

PROFESSIONAL EXPERIENCE

- **2009 - Currently** ◇ **Freelance Architect & Team Lead** ◇ **Siemens** ◇ Solutions architect, architecture advisor, scrum evangelizer, and dealing with all stages of software's life cycle, using .Net, TFS 2010, Asp.net, WCF, Sql Server, SAP Integration. Currently engaged with a multinational team inside Siemens to develop an Architectural framework and a portfolio of applications based on it to automate BPM across the enterprise. Most significant project is a cluster-wide tool for Master Data Management greatly reducing time and cost of vital data. In my role as a Program Integration Manager I coordinate efforts of local consultants and staff in Italy and India, leading maintenance of existing applications.
- **2009** ◇ **Freelance Architect & Team Lead** ◇ **Isban** (Santander Bank's IT Division) ◇ Designed and coded a workflow-driven collaboration tool integrating Outlook 2003 and 2007 with SharePoint 2007 for first line management's document flow needs. ◇ **SharePoint consultant** for **Fedit**, in an intranet redesign project.
- **2008** ◇ **Freelance Architect & Team Lead** ◇ **BT** ◇ I led a team of 5 and was in charge of Architecture, Analysis, Development and Maintenance of collaborative portal for BT resellers, built on MOSS 2007, WSS, VSTO, InfoPath and Web Services for integration with provisioning systems and external systems. Managed integration with third party vendors and platforms. In this period I was also contracted as a **BizTalk 2003 Consultant** for **Repsol**, for a large tax-related in-house development effort.
- **2007** ◇ **Cofounder / Technical Lead** in **NetEra Solutions S.L.** ◇ Project lead and technical consultant for clients such as **Thales e-Transactions**, **Gigigo Mobile Services**, Bahía IT and **El Mundo**, among others. Most significant project was the architecting and leading of the development of a **social network** on the asp.net platform. For Thales Transaction, we developed a scriptable tool to connect to P.O.S. terminals using WinForms, C# and IronPython. For newspaper El Mundo, we participated along with other vendors in a custom document search and management solution.
- **2006 – 2007** ◇ **Renacimiento Sistemas** (now Aventia) ◇ **Senior Developer** ◇ Development and implementation of a SOA architecture and service repository for the Architecture department of **Banco Popular**. Development of different distributed and proof of concept applications under VS2005, .NET 2.0., Remoting, WSE 3.0, XML, MQ Series and BizTalk 2003.
- **2006** ◇ **Freelance Solution Architect** ◇ **Banco de España** ◇ My role involved the analysis, definition and development of n-tier architectures in a transactional environment as well as the design and coding of business and data layers and classes. Led the team that redesigned the application's architecture to make it work and ease development. VB.Net, ASP.Net, UML, PowerDesigner, Oracle 9.
- **2005 – 2006** ◇ **Freelance Architect / Software Engineer** ◇ **ITSEMAP** ◇ Architectural designs for commercial insurance and risk-related applications, design and coding of complete modules, layers and user controls. C#, IIS 6.0, Oracle 8, SQL Server 2000, Sybase Power Designer, ASP.Net, WinForms, XML, SQL SERVER, HTML.
- **2004 – 2005** ◇ **Kato Studios** ◇ **Senior Developer**. Analysis and development of in-house .Net projects (asp.net intranet, productivity tools for game dev, server apps, online gaming server) and j2me games. C#, IIS Administration, ASP, ASP.Net, Visio Enterprise, MySQL, JWireless Toolkit, Eclipse.

- **2004** ◇ Avanade ◇ **Senior Developer** in the development of several modules of a CRM Application for **Euskaltel**. C#, ASP.Net, Embarcadero DBArtisan, Visio, Vantive Client y Vantive Forms Designer.
- **2003 – 2004** ◇ **IT Manager** ◇ **C&S** ◇ In-house development (VB.net and VB6.0, Sql Server, Access, Excel, Xml and Html) and some system administration (2000 and XP) for a small and defunct translation shop.
- **2001 –2003** - **Garben Consultores S.L.** – VB6 and VB.Net **Developer** for different in-house projects. I also worked for a client of theirs, RSI, a nation-wide bank support house. VB6.0 and VB.Net, C, Java, Windows Server Administration, Lotus Notes.
- **2001 – DMR Consulting** (now **Everis**). **Junior Developer** in a wide upgrade project for **Telefonica Móviles**. C, Oracle, PL/SQL, Oracle Forms 3.0 on VMS.

ADDITIONAL EXPERIENCE

- 2003 / 2004 Trainer for **Microforum** in technologies and areas such as ASP.Net, Web Services, XML and COM+ and VB.Net, Programming principles, Javascript, Dhtml and Css.
- From 1996 onwards. Freelance English / Spanish translator of technical manuals, essays, help files, sociology books and texts from different Spanish and European institutions and private companies.

FORMAL TRAINING

2000 – 2001 **Master in Internet Systems Development**. Garben. Madrid.

1992 – 1997 **English Language and Literature**. University of Sevilla.

LANGUAGES.

ENGLISH: Accomplished skills. Extensive translation experience. Excellent reading and writing skills. 2-year stay in London. **Certificate of Proficiency in English** from Cambridge University.

ITALIAN: mid-level working proficiency

MANDARIN CHINESE: HSK Level 3.

INTERESTS

Traveling, reading, photography, lifelong learning, all things server side, enterprise architecture, interpreted languages, cars, business and financial stuff, self-learning, running and sports in general. I used to play guitar a lot and write music back when I had more free time.
